Transforming The Built Environment

Dr. Abdulla Yaqoub Al-Sayed
President of LCI-Q

INSPIRATION

"We have taken advantage of the drop in prices to explore the potential for rationalizing spending, and distinguishing necessary from unnecessary as well as beneficial from non-beneficial. Work will continue on increasing the efficiency of public spending and enhancing transparency and control through a close follow-up of all government projects and programs and focusing on major development projects.

- His highness focused on the need to:
 - *Identifying the obstacles that hampered the implementation of some programs and projects in the first national development strategy to draw lessons in order to avoid recurrence.*
 - *Maintaining the required continuity to complete the initiatives and infrastructure projects.*

The opening of the 45th Session of the Advisory Council, 2016.

LCI-Q Alignment with 2nd National Development Strategy 2018-2022

- Focusing on human beings as the development tool
- “I would like to emphasize here that plans are not a matter of completing a formality; they are designed to be implemented.”
- Integrated monitoring and follow-up system
- Prevent bottlenecks and take necessary corrective actions on a timely basis.

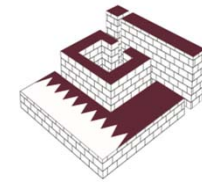

- Maximizing real private public partnerships (PPP).
- Financial sustainability (increased efficiency)
- Improving coordination and communication among all development partners;
- Building planning capacity and upgrading performance
- reduce loss of efforts, resources and time.
- Optimal response to the current sanctions against Qatar
- Maximizing the values of work and achievement.

Abdullah bin Nasser Al Thani
Prime Minister

Dr. Saleh bin Mohamed Al Nabit
Minister of Development Planning
and Statistics

VISION

- Promoting the Lean Construction theory, management, practices, and techniques throughout Qatar.
- Supporting continuing positive transformation of Construction industry to enhance performance, generate value, eliminate waste, increase efficiency, and maximize productivity.
- Providing a platform for collaboration across industry and academia.

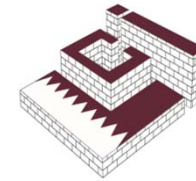

MISSION

- Spread awareness of Lean Construction and Lean Thinking in Qatar.
- Provide the best opportunities to local Lean Construction management professionals and academics who are seeking genuine education, research, training, conferences, knowledge, and networking.
- Establish a platform to share experience, knowledge, lessons learned, and best practices.
- Promote Lean Thinking.
- Supporting the State of Qatar's 2030 Vision, realizing human development, social development, economic development, and environmental development; by developing businesses and Qatari nationals in the field of engineering and construction management.
